- Entry cards may be obtained at the show. Incorrectly prepared cards may disqualify the entry.
- Anyone may exhibit who agrees to abide by our show regulations and to accept all judge’s decisions as final.
- Camellia Nomenclature 2017 or the Camellia Nomenclature Supplement published at www.americancamellias.org/assets/SCCS Supplement.pdf will be the official guide for classification of all blooms. This includes varieties: (1) with errors corrected, (2) registered with ACS but omitted from the “Camellia Nomenclature,” (3) registered with ACS and listed in subsequent issues of the ACS “The Camellia Journal” and “American Camellia Yearbook” and (4) registered with the SCCS subsequent to the publication of the “Camellia Nomenclature.”
- Classes are outlined in the Schedule of Horticultural Exhibits. Any number of varieties within a class may be entered. Exhibitors may place only one entry of a variety in a class. The number of entries in the Seedling class is not restricted.
- Bloom size will be determined by measurement:
